EDUCATION

Bharati Vidyapeeth College of Engineering, Navi Mumbai

2024 – 2028

Bachelor of Engineering in Computer Engineering

CGPA: 7.94

EXPERIENCE

Codence Studio

July 2025 – November 2025

Frontend Developer

- Developed **3+ production ERPs** and **2+ landing pages** using **Next.js** and **Tailwind CSS**.
- Developed modular TypeScript component libraries, reducing development time for new features.
- **Boosted LCP performance by 30%** and improved SEO by implementing advanced Next.js rendering strategies (ISR/SSG).
- Designed responsive and visually appealing interfaces, integrating REST APIs with optimized state management.

PERSONAL PROJECTS

TestimonialsLo – Testimonials Management Platform [Link](#) 

Next.js, Node.js, Express.js, PostgreSQL, Prisma, Mux SDK, Razorpay SDK, NextAuth

- Architected a production-ready SaaS platform using Next.js and TypeScript, and leveraging Mux SDK to handle video uploads, achieving **99% processing reliability** for high-definition client testimonials.
- **Integrated the Razorpay SDK** to manage automated payment flows, implementing **Zod** validation to ensure **100% data integrity** for transaction processing.
- Used **Prisma ORM** and **PostgreSQL** to improve query performance through efficient indexing and type-safe schema design.

FIT KAKA – AI-Powered WhatsApp Nutrition Tracker [Link](#)  [Demo](#) 

Next.js, Node.js, MongoDB, Gemini SDK, WhatsApp Cloud API, TypeScript

- Built a text and image processing pipeline using the **WhatsApp Cloud API**, **Node.js** and **Gemini SDK**, achieving a **97% precision rate** in identifying regional food items and nutrition breakdown.
- Built a dashboard in **Next.js** for users to access their food logs and nutrition history.
- **Engineered** a secure, type-safe API layer using **TypeScript** and **Express**, reducing malformed payload errors from the WhatsApp webhook by **60%** and ensuring **98% data integrity** for daily caloric tracking.

TECHNICAL SKILLS

- **Programming Languages:** Java, TypeScript, JavaScript
- **Frontend Development:** React.js, Next.js (SSR/ISR/SSG), Tailwind CSS, HTML5, CSS3.
- **Backend Development:** Node.js, Express.js.
- **Databases / ORM:** PostgreSQL, MongoDB, Prisma ORM.
- **Developer Tools:** VS Code, Git, GitHub.

POSITIONS OF RESPONSIBILITY

Technical Team Member

WeCodeCrunchers

ACHIEVEMENTS

Winner – BV Hacks Hackathon 1.0
